

# STARK ELEMENTARY SPECIALS CLASSES NEWSLETTER

May 2022

## LIBRARY MEDIA CENTER

The Buy One-Get One Free (of equal or lesser value) Book Fair is next week! May 9th-12th from 8:30 to 4 and Friday, May 13th from 8:30 to 12. Families are welcome! Come stock up on awesome reading materials before Summer break!

Library books are due by May 13th. Please look for lost books and pay library fines for any lost or damaged books on your student's account.

## ART

We are finishing our unit on mixed media artwork in kindergarten-2nd grade.

Third grade is working on their paper quilt artwork. They are learned about the artistry of quilt making and how quilts can reflect a time period or personality.

4th and 5th grade students are finishing their one point perspective unit. They learned that one perspective means the viewer's eye goes to one point on the paper. They were challenged to create a drawing that showed that perspective.

## MUSIC

During the month of May, all 3-5 classes are working on their end of the year projects.

Kindergarten is learning about instruments of the orchestra and their families.

1st and 2nd grade classes are learning about ternary, binary, and rondo musical forms.

All students have a log in for Quavered.com. This website has many activities the students can do at home to help them practice!

Still need more? [classicsforkids.com](http://classicsforkids.com) is a great resource to learn more about music theory and composers!

## PHYSICAL EDUCATION

The month of May brings to Physical Education students the opportunity to self explore with skill stations from activities taught throughout the year. Plus field Day will be taking place the last week of school!!!
