

## Graphic Design I, II, III, 2023-2024

During these classes, you will be assigned tasks and projects that will help you explore Adobe Photoshop, Adobe Illustrator, Adobe InDesign and enable you to put together a digital portfolio that you can present at a college entrance interview or a job interview.

At the end of the 3 classes, you will take the Graphic Design EOPA (end of pathway assessment). If you pass, you will receive certification and a CTAE cord.

### **YOU have control of your grade.**

**Grading:** Your grade will come from completing tasks and earning grades on projects by following rubrics.

**Final:** To exempt the graphic design final, you must have ALL assignments turned in, and meet grade and attendance criteria as decided upon by the school administration.

#### Graphic Design Expectations

Pay attention during instruction.

Work quietly, and only use your phone for music & research.

Put materials away appropriately.

Create ORIGINAL work.

#### Graphic Design Consequences

Not being attentive to instruction will harm your ability to complete the assignments.

Being off task on your phone will lose you valuable time to work, thus affecting your grade.

Not being respectful of materials may result in you paying to fix or replace them.

Art work that is plagiarized will count as a 0.
